NOTE (1).—Throughout this series the figures for Merchandise and Treasure include the Imports and Exports on account of Government.

(2).—For the years 1870-71 to 1873-74, revised figures have been included in all the tables in this series for Government treasure, and in tables Nos. 1 and 2 only for Government stores. As corrected details in regard to articles and countries for Government stores are not available, the revisions could not be carried out in the remaining tables, in which the totals of Merchandise for these years will not be found to agree with those in tables Nos. 1 and 2.

(3).—The amounts for Bengal and Bombay up to 1852-53 are those for Calcutta and Bombay only, the subordinate Bengal and Bombay ports not being included.

(4).—Up to 1865-66, the figures in this series were taken from the returns presented to Parliament. But from 1866-67 a consolidated Volume of Trade Statistics for, the whole of British India has been compiled from returns furnished monthly by Local Governments; and from this year the figures in Tables 1, 2, 3, 4, 6, 7, 8, 10 and 12, shewing the trade for all India, have been taken from this consolidated account; while those for Merchandise in Tables 5, 9, 11, 13, 14, 15, 16, 17, 18, 19 and 20, shewing the trade of each province separately have been taken from the volumes published by Local Governments. The two sets of figures for Merchandise will not be found to agree exactly, owing to discrepancies between the local and imperial volumes.

NOTE (1).—Throughout this series, with the exception of table 22, the figures for Merchandise and Treasure include the Imports and Exports on account of Government.

(2).—For the years 1870-71 to 1873-74, revised figures have been included in all the tables in this series for Government treasure, and in tables Nos. 1 and 2 for Government stores only. As corrected details in regard to articles and countries for Government stores are not available the revisions could not be carried out in the remaining tables, in which the totals of Merchandise for these years will consequently, not be found to agree with those in tables Nos. 1 and 2.

(3).—The amounts for Bengal and Bombay up to 1852-53 are those for Calcutta and Bombay only, the subordinate Bengal and Bombay ports not being included.

(4).—Up to 1865-66, the figures in this series were taken from the returns presented to Parliament. But from 1866-67 a consolidated Volume of Trade Statistics for the whole of British India has been compiled from returns furnished monthly by Local Governments; and from this year the figures in tables 1, 2, 3, 4, 6, 7, 8, 10 and 12, shewing the trade for all India, have been taken from this consolidated account; while those for Merchandise in tables 5, 9, 11, 13, 14, 15, 16, 17, 18, 19 and 20, shewing the trade of each province separately, have been taken from the volumes published by Local Governments. The two sets of figures for Merchandise will not be found to agree exactly, owing to discrepancies between the local and imperial volumes.

c No report received.
d The local authorities consider these figures untrustworthy.
e Cotton is cultivated only to a small extent in Assam, and no report has been furnished.
f These figures are incomplete.
g In the local report the area has been given in beegahs, which have been converted into acres at the rate of 3,600 square yards to the beegah.
h These figures are said to be understated.
i These figures evidently include in some cases the yield of *uncleaned* cotton though given in the local reports as *cleaned* cotton, the yield in some of the district, being stated as 12 maunds or 987 lbs. per acre.
j Estimated by dividing the total outturn by the number of acres under cultivation.
k This average is unusually low owing to sowings in the Kadur and Chitaldroog Districts (3,357 acres) having in consequence of drought yielded less than 1 lb. per acre.

NOTE (1).—Throughout this series, with the exception of table 22, the figures for Merchandise and Treasure include the Imports and Exports on account of Government.

(2).—For the years 1870-71 to 1873-74, revised figures have been included in all the tables in this series for Government treasure, and in tables Nos. 1 and 2 for Government stores only. As corrected details in regard to articles and countries for Government stores are not available, the revisions could not be carried out in the remaining tables, in which the totals of Merchandise for these years will consequently not be found to agree with those in tables Nos. 1 and 2.

(3).—The amounts for Bengal and Bombay up to 1852-53 are those for Calcutta and Bombay only, the subordinate Bengal and Bombay ports not being included.

(4).—Up to 1865-66, the figures in this series were taken from the returns presented to Parliament. But from 1866-67 a consolidated Volume of Trade Statistics for the whole of British India has been compiled from returns furnished monthly by Local Governments; and from this year the figures in tables 1, 2, 3, 4, 6, 7, 8, 10 and 12, shewing the trade for all India, have been taken from this consolidated account; while those for Merchandise in tables 5, 9, 11, 13, 14, 15, 16, 17, 18, 19 and 20, shewing the trade of each province separately, have been taken from the volumes published by Local Governments. The two sets of figures for Merchandise will not be found to agree exactly, owing to discrepancies between the local and imperial volumes.
